HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Diffenbaugh, N., et al. (2016), Appreciation of peer reviewers for 2015, *Geophys. Res. Lett.*, *43*, 3593–3619, doi:10.1002/2016GL068582.

Received 7 MAR 2016
Accepted 7 MAR 2016
Accepted article online 24 MAR 2016
Published online 18 APR 2016

On behalf of the journal, AGU, and the scientific community, the Editors would like to sincerely thank those who reviewed manuscripts for *Geophysical Research Letters* in 2015. The hours of reading and commenting on manuscripts not only improve the manuscripts themselves but also increase the scientific rigor of future research in the field. Many of those listed below went beyond and reviewed three or more manuscripts for our journal, and those are indicated in italics. The refereeing contributions they made contributed to 6221 individual reviews of 3353 manuscripts. Thank you again. We look forward to a 2016 of exciting advances in the field and communicating those advances to our community and to the broader public.
