HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Erratum to: Genetic relationship between greisenization and Sn–W mineralizations in vein and greisen deposits: Insights from the Panasqueira deposit (Portugal)

Erratum for: BSGF – Earth Sciences Bulletin 192, 2 (2021), <https://doi.org/10.1051/bsgf/2020046>

Erratum de : Relations génétiques entre greisenisation et minéralisation à Sn–W dans les gisements de type veines et greisen : nouvelles contraintes du gisement de Panasqueira (Portugal)

The original version of this paper was first published on February 2021, in the BSGF – Earth Sciences Bulletin, 192, 2.

However, some remarks from one referee were not incorporated, and the Supplementary material was not available in the published version. For these reasons, we decided to publish this article again, with the necessary corrections and Supplement materials.

We apologize for the inconvenience.
