HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Publisher Note: Circumbinary, not transitional: On the spiral arms, cavity, shadows, fast radial flows, streamers and horseshoe in the HD142527 disc

Accepted 2018 September 3. in original form 2018 August 23

Key words: errata – addenda – protoplanetary discs – planet-disc interactions – binaries: general – submillimetre: planetary systems – accretion, accretion discs.

In Price et al. (2018), the affiliation of A. Zurlo was incorrectly listed with a previous affiliation to the Universidad de Chile. The corrected affiliation is given in the author list above.
